## Internships

Overview Concepts Of Java Programming, Brainery Technology,  
Coimbatore

DECEMBER 2024 – JANUARY 2025

During this internship, I gained an overview of Java concepts, including its fundamentals, syntax, and key features. I learned about object-oriented programming (OOP) principles such as classes, objects, inheritance, polymorphism, encapsulation, and abstraction. Additionally, I explored essential Java concepts like data types, control structures (loops, conditionals), methods, exception handling, and basic file handling. This experience provided me with a strong foundation for developing Java-based applications.
